

BRIAN'S TRICK, BOB'S TREAT

How appropriate! Its Halloween season so Brian Wahler, Bob and Ellen Smith are trying to trick you into voting Democrat so they can get their treat - My family farm for them to develop. Not only will they get my 75 acres, but 100 acres! You the taxpayers will be paying for that. You see in 1975 they took 25 acres from us "down in the woods". Now they built Centennial Avenue and a Wal-Mart and a Shop-Rite, etc. They want to build more shopping centers.

We have a deed restriction on that already "preserved" land. As long as we own the farm it is ours to use. The Dems will horse trade that preserved land (25 acres) with your money and build more shopping centers. Before you know it, the entire 100 acres will be covered with stores and you will never know a farm existed here.

Did you know that Bob Smith is a land use attorney? And as we understand it, our township attorney, Howard Gran is also a land use attorney. Mr. Gran's firm represents the owner of the property that was bulldozed at night next to our 25 acres. Did you know that Ted Light and Bob Smith sold 12 green acres/open space properties to developers during their administrations? By mistake! Ha! Here comes number 13, Cornell Farm.

But we won't be fooled by them. After more than 20 years of their corruption, haven't we had enough?

For those of you who are new to Piscataway, Bob Smith was our mayor. Didn't he have to resign? Didn't he and his wife Ellen while on the zoning board sell their influence to developers and coerce the board to vote their way? Now, Bob and Ellen have the Chutzpah to spread lies about my family.

We have been farming our land since 1921 and never had our farm and home for sale. Yet, that's what they want you to believe. My cousin set up the farm in a limited liability corporation to protect the farm from lawsuits from horseback riding accidents or liens against its owners. We have refused \$20 Million for our farm in the 80's. Why would we sell it to bob for \$4.2 million today?

Bottom Line – The Democrats haven't stopped their taking of my farm. They don't want a farm in Piscataway. Did you know the town council in the last session called our farm an eyesore? They want more Centennial Squares. The only reason they are

talking about preserving our farm is the huge response we got from our petition drive to stop the condemnation which we thank you for.

We have offered the town the Right of 1st refusal- endorsed by "The Home News" and "The Courier News" –if we ever want to sell our farm. But they rejected it. Why? Maybe because our own township attorney, Howard Gran represents the developer adjacent to our property across from Lowe's, which Jack Morris prepared for yet another shopping center under the cover of night. **You can save the farm and clean our government at the same time by voting Republican.**
